

To whom it may concern;

Wayne Ferrell, and his staff of professional techs, amazed us on their vision, and care towards our project for a spa. To see Wayne put down on paper and bring to life a dream, was truly impressive. Not only did Wayne and his team complete the job in a timely manner, they also went beyond the call of duty for my partner and myself. In a difficult situation concerning a GC we were to hire that went awry, Wayne and his staff stepped up to the plate in assisting us in damage control. Further more, I was impressed with the personal care each one put into our spa, and considered every detail. All of Wayne's team are professionals and understand customer care. And, I have a beautiful place to do what I love to do.

I have recommended Wayne, and will continue to recommend him, to anyone considering hiring them for their spa, or home.

Sincerely,
John Grigg
